

Other currencies

The default currency that is used for the system is the euro (€). For some events it might be an added value or requirement to display other currencies. Within the system it is possible to select another default currency so the visitors of the webshop will see that currency first. Depending on the number of currencies that are added the visitor of the webshop is able to select another currency so the prices are displayed in the selected currency.

FAQ

- [How do I add another currency](#)

Display currencies

In this example the American dollar (\$) is chosen as the default currency. Secondary the Russian ruble is another display currency.
