How do I add Facebook discounts to my webshop

The first thing that needs to be done is adding the link of your Facebook event to the Event in the Dizizid system. Make sure you add the correct link to your event. If you add the link to your Facebook page, -group or -community the discount will not work. Only Facebook event links can be used.

Events reporting	+ Add r	new schedule			

- 1. Login to the events admin module
- 2. Go to "Manage events"
- 3. Search for your event by using the search criteria
- 4. Click on the name of the event to show the details (if they are not displayed yet)
- 5. Click on the "Edit" button on event level
- 6. Add the link to your Facebook event in the field: "Facebook event page"
- 7. Press "Save event"
